## **Satan's Signs Found in Most Logos**

*(left, the omnipresent swoosh)*

*(from May 16, 2019)*

**Have you noticed that corporations are taking political stands, (<https://www.henrymakow.com/2016/04/we-have-de-facto-communism.html>) and coincidentally singing from the same globalist songbook? Have you noticed that whites are becoming a minority in ads and miscegenation is fostered by TV commercials? It's as though someone blew a whistle and they all came out for gender dysphoria, "multiculturalism" and toxic covid GMO "vaccines."**

**The explanation is that, despite our pretensions to "freedom," we actually live under a Communist regime ([https://www.henrymakow.com/what\\_is\\_communism.html](https://www.henrymakow.com/what_is_communism.html)). "Money" is the blood supply of society (<https://www.henrymakow.com/2019/05/behavior-to-affect-your-credit-score.html>). The blood supply is controlled by the Masonic Jewish (satanist) central banking cartel. They are the Casino, the House. "Money" is their Chips. In other words, the blood supply is poisoned.**

**All public and private entities are controlled by the world central banking cartel which seeks to enslave humanity by undermining gender (family), religious, racial and national identity. They use Freemasonry and Organized Jewry to achieve this end.**

**Illuminati (Satanic) motifs are present in the logos of numerous corporations, cities and states. These motifs include the dot in a circle (penis in vagina), the Eye of Horus (666 or "OK" sign), the swoosh (sunrise on horizon signifying Lucifer the light bearer), the Masonic**

**Compass and Square, the Masonic Two Towers, the Star of David, Pentagrams and Pyramid without the capstone. This is the way they signal their dominance to insiders.**

these symbols have ancient history tied to them. the all seeing eye , serpent symbols, lion heads, crowns, fish tales [dagon], many more. we are strung along century after century by the same demonic forces by the same bloodline dynasties. we are no more than a human farm being cultivated for the final anti-christ system, depopulated for easy control, bred solely for the lucifarian last day system. the harvest is almost complete.

The Old Testament tells us witchcraft is off limits (i.e. Deuteronomy 18:10; Micah 5-12) and yet Christians seem to dabble in the black arts as much as any others.

With all your many examples of Satan's signs incorporated in the logos, should one conclude that these signs are used because they work? Why else would they be used so prominently?

If there is a true competition in spirituality, are there examples of God's symbols incorporated in logos?

Then, once we are aware of the two sides, we can choose who we support with our consumer dollars.

In Isaiah 14:12, Satan is pictured as the actual king of the entire Babylonish system because he is its real author. Revelation 17:5 describes a "daughter of Babylon," not the original city of Babylon, but a subsequent counterpart, perpetuating the abominations of the original system. The demonic economic system enslaving most of the world had its origin in ancient Babylon. To reiterate, Satan is its author. He is the original king of Babylon. In my opinion, Satan offered this same money power to Christ. Christ refused the offer, but the Jews became acquainted with the system during their 1000-year sojourn in Babylon; and spread the system throughout the world. They have the money power because they worship Satan. Not all Jews. Just those at the top of the satanic pyramid. Throughout the Bible,

Satan is pictured as a reptile of one form or another. Apparently, the reptile brain functions primarily by the use of symbols. It should come as no surprise, therefore, that we are seeing satanic symbols everywhere. Dogs piss on everything to mark their territory; the worshipers of Satan use symbols.

I saw you had your satanic signs post up, and noticed you didn't have one very prevalent one in there. It refers to the letter 'X'. If you noticed, there are a lot of references to this. A few examples:

**Oliver** said (January 22, 2012):

The following video is probably the most coherent explanation of the symbolisms and chaos sorcery behind the staged 911 events that I have come across: <http://www.youtube.com/watch?v=khrc1vgAva0&feature=related> (<http://www.youtube.com/watch?v=khrc1vgAva0&feature=related>) (Was 911 a masonic ritual sacrifice?)

The first half of the video explains basic masonic symbolism and the lore behind it. Although the video is lengthy I found it worthwhile in always going a step deeper than what is common knowledge. The lecturer Marc Passio cites Manly P. Hall: " ... masonry misleads those who deserve to be mislead ... the blue degrees are but the outer portico of the temple ... the initiate is intentionally mislead by false interpretations ... it is not intended that he understands them, but it is intended that he imagines he understands them." The same symbol can be employed to either support or invert the divine order.

The circle or compass represents leeway / spirit whereas the square represents not only enforcement but also base consciousness. Base consciousness in all its reactive predictability can easily be steered and manipulated by staged threats. The specific placement of square, double square or cube inside cube symbolisms or even inverted pentagrams on enforcement personnel reveals how they (as well) are being used and manipulated in the engineered problem, reaction, solution dialectic.

He further explains the pyramid on the 1 Dollar bill. The brick pyramid actually blocks the true light coming from above, so that it cannot reach the earth. The bricks represent petrified consciousness, captive in matter and controlled by left brain thought identification which cannot spiritually ascend. The brickheads as epitomized in communist leadership, EU-technocrats or DARPA transhumanists refuse to trust God and cannot see the anti-life world they create despite all their supposedly wonderful ("necessary") agendas.

I couldn't even scratch his following excellent explanations of 911 symbolisms in a brief comment. An interesting detail is that they were forced to pull building 7 although it was never hit by anything, thereby giving away their plot to even the vaguely aware. If they had left the third (the middle) building standing, then the living truth / spirituality / care / the goddess or conscience would - in the symbolism of the occult perpetrators of the 911 ritual - still have been left standing. All very well explained in the video.

While watching television one day, an ad for the State of Nevada tourism came on; the song was catchy.

After hearing it a few times, the lyrics came through loud and clear:

But when the the sun shines bright  
I'm on my knees...

LOL. Sun, Ra worship? Who skis or plays in the snow on their knees?

These are the first lines that are heard on the 30 second T.V. spot but the link I've supplied is the whole song; the lyrics can be heard about the :22 second mark.

As a professional graphic designer, I wanted to add a few thoughts.

It's difficult to design a mark (the symbolic part of a logo) that can't be analyzed as having occult symbolism. Because many logos intend to condense information about the company into a simple, memorable symbol, and because you draw from the visual history and vocabulary people are familiar with, you can end up with a lot of "suggestive" motifs without knowing it. If you work for a hierarchical firm, your work gets edited by creative directors. If you don't, it gets edited by your client.

Most of today's logos draw from the 1950s-80s period, where corporate America was in full bloom. Most of the influential logo designers from this period were Jews, like Paul Rand (Peretz Rosenbaum), Saul Bass and Milton Glaser.

There are a few logos with unmistakable "illuminati" symbolism â€” ie the London Olympics "Zion" logo (Wally Ollins), the Alfa Romeo logo, which is over 100 years old, the original Proctor & Gamble logo ([http://en.wikipedia.org/wiki/File:P%26G\\_logo.jpg](http://en.wikipedia.org/wiki/File:P%26G_logo.jpg)), Starbucks. Though I would suppose a lot of so-called illuminati logos, like Target, are over-analyzed.

In my experience, there is a very nepotistic "foundation" culture to which a handful of designers and agencies are attached. Chermayeff & Geismar (<http://cgstudionyc.com/identities>) seem to be the official identity designers to the Rockefeller and Hearst interests. One of the most influential design agencies of the last ~30 years is called Pentagram. Someone like me might accidentally design an "occult" logo for a small business, but would have no access to a multinational oil company.

Here's a pretty good list of designers worth knowing:  
<http://www.logosdesigners.com/> (<http://www.logosdesigners.com/>).

I would assume that the majority of "illuminati" logos are accidents or just derivative of other logos, but there is certainly a small and mostly Jewish group of "illuminati-friendly" design agencies who seem to handle most of the big ones.

I can't imagine you're unfamiliar with the work of Bryan Kemila at IlluminatiMATRIX, but just in caseâ€¦

Here a good introduction to that site and the breakdown of subliminals in numbers and letters:

<http://dedroidify.blogspot.com/2008/01/language-subliminal-symbolism.html> >

Here's Kemila's video about the origins of the 3D universe:

<http://video.google.ca/videoplay?docid=-6226036544608625413> >

And here's the IlluminatiMATRIX site itself:

<http://illuminatimatrix.wordpress.com/> >

The issue of subliminals and symbolism runs very, very deep.

Kemila is almost alone in his depth of understanding about what we're all caught up in.

To understand that website, it takes some background in kabala and occultism, foreign to most people, and it takes patience to read all the material on the site from 2008 to now.
